Travel Expense Reimbursement

Section No.: 4.0

Approved By: SVP Operations

Page 1 of 4

1.0 PURPOSE

To establish standardized procedures for reimbursement of marine employee travel expenses.

2.0 SCOPE & RESPONSIBILITY

This applies to all Marquette Transportation employees.

The Crewing Department is responsible for:

- Reviewing marine employee travel expenses to determine reimbursement; and,
- Reimbursing all employee expenses as set out in the following procedure.

3.0 REFERENCES

A. 46 CFR 138.220(b)

4.0 PROCEDURE

4.1 Travel to and from the vessel

- 4.1.1 Marquette Transportation has a reasonable expectation that each vessel employee will transport themselves, at their own expense, to the vessel, airport, train station or rental car facility, within a realistic distance of fifty (50) miles.
- 4.1.2 If a Marquette Transportation employee chooses to employ a cab service, or other service, to take them a distance of less than fifty (50) miles, they are responsible for the charges, and should pay for them up front, or expect to have them deducted from their paycheck.
- 4.1.3 The Crew Manager and Duty Port Captain may agree to have the employee picked up from their home, or other arrangements in the event of an emergency, but this arrangement must be made prior to travel.
- 4.1.4 Any travel arrangements made to pick up an employee from their home must be made by the Crew Manager or Duty Port Captain, and will be deducted from the employee's check.

4.2 Mileage

- 4.2.1 Mileage will be paid at 50 cents per mile, for all vessel employees, up to \$200 maximum;
- 4.2.2 Mileage will not be paid for distances less than fifty (50) miles.
- 4.2.3 Mileage will be paid for going to the vessel or coming from the vessel only. This

mileage will be paid from home to vessel or home to office, then office to home or vessel to home.

4.2.4 If another person drives the employee to catch the vessel, the employee will not be reimbursed for that person's return mileage.

4.2.5 The company will pay mileage only for travel in a personal vehicle. The company does not pay for gas/fuel expenses incurred when driving the employee's own vehicle.

4.3 Rental/company vehicles

4.3.1 The Crew Manager will arrange a rental/company vehicle for a vessel employee to use to make crew change. In the event a vessel employee drives a rental vehicle, they are responsible for putting gas in the vehicle, and they are required to return it to the rental dealership with a full tank of gas.

4.3.2 The vessel employee will be reimbursed for any gas that he/she puts in a rental car, upon presentation of proper receipts.

4.3.3 The vessel employee is required to return the rental/company car to the car rental dealership/company at the earliest possible date.

4.3.4 If the vessel employee keeps the rental/company vehicle for their own personal use, or does not promptly return the vehicle to the rental dealership, or does not refill the gas tank, any additional charges incurred as a result of this will be deducted from the employee's next paycheck, as well as fuel charges incurred for the rental agency to refill the tank.

4.3.5 If a preventable accident occurs, and damages to a rental vehicle or company vehicle results, the driver will be responsible for paying a minimum of \$500.00 for the first accident, and a minimum of \$1,000 for the second accident.

4.4 Travel arrangements

4.4.1 The Crew Manager will make travel arrangements for all crewmembers to get to their crew change destination. This may require riding buses, cabs, or flying.

4.4.2 If the vessel crewmember chooses to travel by another mode of transportation, other than what the Crew Manager has arranged, they will be reimbursed travel expenses UP TO THE AMOUNT OF THE TRAVEL ARRANGEMENT COSTS MADE BY THE CREW MANAGER.

4.4.3 The Crew Manager will arrange for pre-paid tickets for vessel employee travel. If the vessel employee does not use the ticket without notifying the office, the cost of the ticket may be deducted from their next paycheck, depending upon the

circumstances.

4.5 Meals

- 4.5.1 Meals are very rarely reimbursable. If the employee is in a crew van for longer than five (5) hours, the crew van driver will pay for meals and attach the cost to the invoice.
- 4.5.2 Each case can be considered and will be reimbursed at the discretion of the Crew Manager.
- 4.5.3 The cost of meals eaten during travel is reimbursable to Captains, Pilots, and Chief Engineers.
- 4.5.4 Snacks and drinks purchased while traveling will not be reimbursed.

4.6 Hotels

- 4.6.1 Overnight hotel accommodations are generally made by the Crew Manager.
- 4.6.2 If an overnight hotel stay is required, it must be pre-authorized by the Crew Manager in order to be reimbursed for the costs.
- 4.6.3 If hotel arrangements are made and the vessel employee extends his stay, for whatever reason without prior approval, the cost of the hotel room may be deducted from their next paycheck, depending upon the circumstances.

4.7 Personal travel

- 4.7.1 Travel for a vessel employee who requests to get off the vessel before their regular days are up will be considered as personal travel.
- 4.7.2 In the event the Crew Manager makes travel arrangements for the employee to go home from their vessel's location, the cost of the travel expenses may be deducted from their next paycheck, depending upon the circumstances.

4.8 Reimbursement

- 4.8.1 Requests for reimbursement must be submitted to the office via the Suti Expense Management system. Paper forms will not be accepted.
- 4.8.2 All expense line items must be accompanied by an ITEMIZED receipt with the exception of mileage. Non-itemized receipts will not be accepted.
- 4.8.3 All expenses must be submitted within 60 days from the date of travel.
- 4.8.4 Gulf-Inland/Offshore wheelhouse personnel that live more than 250 miles from the assigned home port will receive a half day pay for travel expenses.
